

SAFETY TIPS FOR HANDLING ALLERGENS

Avoid cross contact with allergens

- Wash and sanitize all food contact surfaces before starting to prepare a new item
- Do not use the same utensil or glove to serve foods with Big 9 allergens and other foods
- Observe handwashing procedures and change gloves following established policy

Follow recipes and menus exactly

- Do not make substitutions without authorization

SYMPTOMS OF ALLERGIC REACTIONS

A food allergy is an immune system response to a particular food.

Symptoms may include:

- Itching or swelling in the mouth
- Vomiting, diarrhea, or abdominal cramps and pain
- Hives or eczema
- Tightening of the throat and trouble breathing
- Drop in blood pressure

READ LABELS CAREFULLY

There is no room for error when working with allergens. Trace amounts of allergens can cause allergic reactions.
